INTRO

Objective:

I am motivated and ambitious student pursuing a Bachelor of Business Information Technology
(BIT) at Kabarak University. Eager to apply my technical skills and gain practical experience in the
field of software development.

Projects:

* Developed and maintained web applications using Nuxt.js, Vue.js, React, and Tailwind
CSS.
* Utilized Django and Flask frameworks to build backend functionality for web applications.
* Implemented RESTful APIs using Node.js and MongoDB to enable seamless data transfer
between different applications.
* Actively participated in code reviews and testing to ensure software quality and adherence
to best practices.
* Contributed to the documentation of software solutions to ensure they were welldocumented
and easy to understand for other developers.

WORK EXPERIENCE

EDUCATION

Bachelor of Business in Information Technology
Kabarak University • Sep 2020 – Present

I am still progressing with my degree in BIT at KABARAK UNIVERSITY and i have gain skills that has enhance me to build projects like
live location tracker and so many .I have got in my github repository :https://github.com/Cosmasrono?tab=repositories
check it for more details

SKILLS

UML   System integration   Testing and debugging   Troubleshooting   System and network security

User experience (UX and UI) design   Windows   Web service and application development   Web servers

Web and mobile browsers   Virus protection   System (IT) auditing   Server hosting and management   React.js   Python

Open source   Object oriented programming   Node.js   Information security   JavaScript   Linux   IT training   IT support

IT equipment installation and configuration   Github (or other software version management systems)   Database administration

Artificial intelligence (AI)   Agile and Lean methodologies   AWS (Amazon Web Services)   Team leadership

Office administration, management   Leadership skills   Documentation and record keeping   Customer service   Communication

Ability to coordinate   WordPress   Operating systems   Office tools (MS office, open office, etc.)   Java   HTML

File management and data back-up   Database query languages (SQL, others)   Content management   CSS   C, C# or C++

Bootstrap

CERTIFICATES

LANGUAGES

English
Spoken: Fluent • Written: Fluent

ASSOCIATIONS

live software
react,js developer
